MSc in Computational Linguistics candidate (IMS – University of Stuttgart) working on machine-generated text & paraphrases detection, multilingual NLP, multimodal learning, and the linguistic analysis of (large) language models.

EDUCATION	Master of Science in Computational Linguistics <i>University of Stuttgart, Stuttgart, Germany</i> Relevant Coursework: Machine Learning, Deep Learning, Foundation Models, Multimodal AI, Machine Translation, Parsing	Apr 2024 – Dec 2026
	Certification of English Teaching Training <i>Centre Régional des Métiers de l'Education et de la Formation, Tangier</i> Relevant Coursework: ESL didactics, Classroom Management, Assessment, Action Research	Feb 2018 – Aug 2018
	Diplôme de Technicien Spécialisé (DTS) in Software Development <i>Specialized Institute in Professions Exporting Services and Modern Technologies for Information and Communication, Tangier, Morocco</i> Relevant Coursework: Algorithms, C/ C#/ Java programming, Desktop/ Web/ Mobile Applications, Database Management	Sep 2016 – Jul 2018
	License (Bachelor of Arts) in English Studies: Linguistics Major <i>Faculty of Literature & Human Sciences (FLSH), Tetouan, Morocco</i> Relevant Coursework: Phonetics & Phonology, Morphology, Syntax, Semantics, Pragmatics, Applied Linguistics	Sep 2014 – Jul 2017

PUBLICATIONS	Yassir El Attar , Esra Dönmez, Maximilian Maurer, and Agnieszka Faleńska. 2026. A systematic analysis of linguistic features in AI-generated text detection across domains and models. Submitted to ARR (pdf)	
	Yassir El Attar , Esra Dönmez, Nina K. Ohlendorf, and Agnieszka Faleńska. 2026. Leveraging Comparable Toxicity Lexicons in Prompt Instructions for Multilingual Text Detoxification. In <i>Proceedings of the 19th Workshop on Building and Using Comparable Corpora (BUCC) @ LREC 2026</i> , p. 108, Palma de Mallorca, Spain. ELRA Language Resources Association (pdf)	
	Yassir El Attar . 2025. YassirEA at MAHED 2025: Fusion-Based Multimodal Models for Arabic Hate Meme Detection. In <i>Proceedings of the Third Arabic Natural Language Processing Conference: Shared Tasks</i> , pp. 608–614, Suzhou, China. Association for Computational Linguistics (pdf)	

EXPERIENCE	Teaching Assistant <i>Institute for Natural Language Processing, University of Stuttgart</i>	
	Parsing (with Prof. Dr. Kuhn)	Apr 2026 – Aug 2026
	Programming for Computational Linguistics (with Dr. Faleńska)	Oct 2025 – Mar 2026
	Parsing (with Dr. Falk)	Apr 2025 – Sep 2025
	Programming for Computational Linguistics (with Dr. Faleńska)	Oct 2024 – Mar 2025
	Student Research Assistant <i>DANIS at IRIS Group, University of Stuttgart, Germany</i>	Oct 2025 – Sep 2026
	Interpretable features of machine-generated text project	
	Student Research Assistant <i>EEP and Fraunhofer Institutes, University of Stuttgart, Germany</i>	Jan 2025 – Sep 2025
	Creation of models for energy systems cost optimisation	
	Developer and Team Manager <i>Software Version 7.0 Startup, Tetouan, Morocco</i>	Oct 2022 – Jan 2024

- Data & workflow optimisation models in Python and PowerShell

Developer

IGNITREE Web Development Agency, Tetouan, Morocco

Jul 2023 – Oct 2023

- Development of web/ CMS applications

English as a Second Language Teacher (Part-time)

American Language Center - Tangier, Morocco

Jan 2021 – Aug 2022

- Teaching beginners, intermediate, & advanced classes

English as a Second Language Teacher (Full-time)

Ministry of Education of Morocco - Chefchaouen & Tangier, Morocco

Sep 2018 – Oct 2022

- English instruction for high-school students

SELECTED RESEARCH PROJECTS

Ongoing Research Project

Master Thesis at IMS, University of Stuttgart

June 2026 - Dec 2026

- *Linguistic Fingerprints of Paraphrasing: Contrasting AI and Human Paraphrase Behaviour*

Selected Course Projects

Team Lab for Computational Linguistics (Grade: 1.0)

Apr 2025 - Sep 2025

- *Classification of toxic texts & detoxification of English texts*

Foundational Questions Regarding LLMs (Grade: 1.3)

Oct 2024 - Mar 2025

- *Bridging LLMs and Linguistics: Towards a Unified Framework for Language Understanding (Seminar Report)*

Foundation Models (Grade: 1.5)

Oct 2024 - Mar 2025

- *Medical VQA model for dermatology*

Introduction to Deep Learning (Grade: 1.0)

Oct 2024 - Mar 2025

- *LSTM & CNN-based model for emotion classification using speech features*

SKILLS

Machine Learning & NLP: PyTorch, HuggingFace Transformers, scikit-learn, spaCy, TensorFlow

Programming & Scripting: Python (primary), Bash, C/C#/Java/Kotlin, Web Technologies

Data & Tools: NumPy, pandas, NLTK, SQL, Git, Docker, Jupyter, Google Colab, LaTeX

Languages: Darija (native), Modern Standard Arabic (native), English (C1-C2), French (B2-C1), German (B1), Spanish (A2)

MEMBERSHIPS & ACTIVITIES

Workshops

- Organised a workshop on "Fake vs. Real Text" for "Girls Day" at IMS, Stuttgart
- Led workshops on "AI in ESL classroom" at American Cultural Association
- Led workshops on "Moroccan classrooms" for Fulbright teachers exchange program
- Led workshops on "Programming and AI" at L'GEEK association campaign

Member

- School Board member at Albassatine & l Hajj El Hadri High Schools

Voluntary Activities

- Volunteered at L'GEEK association during L'geek Tour and L'Geek week
- Provided English courses to low-income students at Descartes Association - Tangier

INTERESTS

- **AI & NLP** – Exploring emerging models and architectures in AI, NLP, & Agents
- **Languages & Reading** – Learning languages and reading about linguistics theories
- **Travel & Culture** – Engaging with diverse cultures in travel & cross-cultural exchange

REFEREES

- **Dr. Agnieszka Faleńska** (agnieszka.falenska@ims.uni-stuttgart.de): Master's thesis supervisor and research supervisor (DANIS project, IRIS group)
- **Prof. Dr. Jonas Kuhn** (jonas.kuhn@ims.uni-stuttgart.de): Course instructor; supervised my work as teaching assistant for the Parsing course
